IntelliBrite® 5g Color LED

Underwater LED Lights for Swimming Pools and Spas

IntelliBrite 5g Color LED Pool and Spa Lights

IntelliBrite® automated color-changing pool and spa lights feature LED technology—the wave of the future in energy—efficiency, lifetime value, quality of light, and controllability. With IntelliBrite, combinations of individual colored LED's are mixed and matched to achieve a vibrant spectrum of colors. These combinations are power sequenced to illuminate and cycle through colors at varying speeds, and in different sequences of color. Combined with a custom reflector and unique lens design, IntelliBrite offers superb efficiency while being the brightest yet most energy efficient underwater LED light available.

Featured Highlights

- A superior reflector design assures more light is directed toward the pool bottom to further increase intensity and color effects, while minimizing glare
- Superior lens geometry distributes light in an optimum way to avoid "hot spots" on the pool bottom. Light intensity and color are distributed more uniformly throughout your pool.
- Pool lens can be rotated to 180 degrees to provide wide beam pattern (standard) or narrow beam pattern
- IntelliBrite technology makes use of the brightest and most energy efficient LED's available in underwater pool and spa lights – up to 50% less energy consumption than competitor's lights
- Set one of 5 predetermined fixed colors to match or create the mood for the evening – blue, green, magenta, white, and red or select from 7 popular "color shows" that come preprogrammed into IntelliBrite
- IntelliBrite was designed to work with IntelliTouch® and EasyTouch®, the leading control systems for pool, spa, and poolscape equipment automation. In effect, you transfer control of IntelliBrite to the IntelliTouch® or EasyTouch® system which controls all your other backyard and pool features.
- IntelliBrite 5g Color Pool and Spa lights are backwards compatible with first generation IntelliBrite lights.

Please refer to page 118 for CSA listed IntelliBrite Pool Lights.

Note: All 120 volt pool and spa lights must be connected to a branch circuit protected by a ground fault circuit interrupter (GFCI).

Notice: Underwriters Laboratories has listed Pentair Pool Products lights for use with Pentair Pool Products, American Products, Purex, or PacFab niches only. To ensure proper grounding/bonding connections install only Pentair Pool Products lights in Pentair Pool Products, American Products, Purex, or PacFab niches.

See pages 448 for replacement parts.

IntelliBrite® 5g White LED

Underwater LED Lights for Swimming Pools and Spas

Featured Highlights

- The brightest most energy efficient white LED pool light on the market
- Energy efficient utilizing up to 86% less energy than comparable incandescent lights
- Superior lens geometry and exclusive reflector design combine to create a wider beam and more uniform light distribution
- Pool lens can be rotated to 180 degrees to provide wide beam pattern (standard) or narrow beam pattern
- Compatible with Pentair Stainless steel and plastic niches
- Available in 120V and 12V versions
- Available in 300W, 400W, and 500W incandescent equivalencies

IntelliBrite 5g White LED
Pool Light

IntelliBrite® 5g White LED offers a brighter, more energy efficient alternative to incandescent white lighting. Utilizing its array of LEDs, it is also ideal for commercial applications.

IntelliBrite® Landscape Lights

Color LED Lights for Landscapes

Featured Highlights

- Ability to Synchronize with IntelliBrite Color Pool and Spa Lights
- Can be controlled by IntelliTouch® and EasyTouch® Systems
- Utilizes Energy Efficient LED technology
- 2 levels of Brightness and color saturation
- 2 suites of colors ("Landscape and IntelliBrite")
- 40° beam width

IntelliBrite Landscape Lights, with 5 fixed colors and 7 shows, are compatible with IntelliBrite Pool and Spa Lights, and can be controlled by IntelliTouch, EasyTouch and IntelliBrite Controllers. These lights can be mounted in any position on the wall or ground with an arm swing of 0° to 90°.

Amerlite®

Underwater Incandescent Lights with S/S Face Rings

Amerlite Incandescent Lights

Amerlite®, the world standard of reliability for underwater lights, features a stainless steel shell, 8-3/8 in. prismatic tempered glass lens, and stainless steel face ring with uni-tension clamp. Amerlite lights are UL listed to install in full-sized Pentair Pool Products, American, PacFab and Purex niches.

Featured Highlights

- World standard of reliability
- Stainless steel face ring with uni-tension clamp
- Superior light diffusion
- Prismatic tempered lens
- Gold diffused low water cutoff
- Medium blue lenses available
- Plastic snap-on face rings available for s/s lights

Dimensions and Certifications

Please refer to page 118
for CSA listed Amerlite
Pool Lights.

Note: All 120 volt pool and spa lights must be connected to a branch circuit protected by a ground fault circuit interrupter (GFCI).

Note: All cord lengths over 50 feet on 12 volt lights create resistance that dramatically reduces the light output. This condition exists on all low voltage lights regardless of design or manufacturer.

Notice: Underwriters Laboratories has listed Pentair Pool Products lights for use with Pentair Pool Products, American Products, Purex, or PacFab niches only. To ensure proper grounding/bonding connections install only Pentair Pool Products lights in Pentair Pool Products, American Products, Purex, or PacFab niches.

See page 454 for replacement parts.

SpaBrite®

Incandescent Lights for Swimming Pools and Spas

SpaBrite Incandescent Lights

SpaBrite® lights are available with stainless steel face rings. These lights are perfect for spas and areas where space is not available for a full-size light. SpaBrite lights install in small plastic or stainless steel Pentair niches.

Featured Highlights

- Stainless steel face rings
- Prismatic tempered glass lens
- Stainless steel housing
- Easy service stainless steel clamp
- Incandescent 12v and Halogen 120v lamp
- Gold diffused low water cutoff
- Easy to service
- Plastic snap-on colored face ring covers available

AquaLumin® III Lights

Nicheless Light for Swimming Pools and Spas

AquaLumin III Nicheless Light

The AquaLumin® III nicheless lights provide brilliant, double contact halogen quartz lighting for all vinyl liner pools and spas. This revolutionary design uses a mounting hub and bracket instead of a niche. This light eliminates the need for pre-punched light panels, costly make-up panels and extra braces for vinyl pools.

Featured Highlights

- Requires only a 3 in. hole in wall panel
- No costly make-up panels
- No extra braces
- Wall hugging fit
- Easy to service
- Easy to install

AquaLuminator®

Light and Water Return for Aboveground Pools

Featured Highlights

- Light and return fitting
- 25 ft. plug-in cord
- Deluxe retail packaging
- Fits most aboveground pools
- AQL 500 for smaller pools
- Pressure cleaner adapter
- Fountain attachment available
- Hard plumbing adapter

Our Hydro-Optic™ technology creates this revolutionary light and return fitting combination. This light fits the existing water return hole pre-punched by most aboveground pool manufacturers and can be installed on new or millions of existing pools. The AQL 500, with 33% fewer lumens than the standard AquaLuminator® offers quality entry-level lighting for smaller pools.

HiLite®

Plastic Light for Swimming Pools and Spas

HiLite Plastic Lights

The plastic HiLite® is the first light to be UL listed for installations in as little as 4 in. below the water surface. The shallow placement of these innovative lights on opposite pool ends will illuminate the entire swimming area, hiding plaster imperfections and eliminating hot spots in the pool.

Featured Highlights

- UL listed for 4 in. depth below water
- All plastic housing and lens
- Easy placement, easy to install
- Perfect for lights on opposite pool ends
- High intensity halogen quartz
- Quarter-twist bulb access
- Molded clip for cord storage retention
- Fits on any vertical wall
- Soft, even light distribution
- 12 volt, 75 watt
- Simple two-wire connection

Dimensions and Certifications

Note: All cord lengths over 50 feet on 12 volt lights create resistance that dramatically reduces the light output. This condition exists on all low voltage lights regardless of design or manufacturer.

Notice: Underwriters Laboratories has listed Pentair Pool Products lights for use with Pentair Pool Products American Products Purex or PacFab niches only. To ensure proper grounding/bonding connections install only Pentair Pool Products lights in Pentair Pool Products or American Products niches.

SwimQuip™ Lights

Featured Highlights

- **Materials of Construction** – Utilizes a heavy copper shell
- **High-impact Lens with many small prisms** – Designed to reflect light rays throughout the pool, yet eliminates undue glare from above
- **UL and CSA Listed** – For fresh water

SwimQuip™ Underwater Light

For Replacement Only: SwimQuip Niches have been discontinued.

Ordering Information

Product	Description	Cord Length (Ft.)	Carton Wt. (Lbs.)
SWIMQUIP UNDERWATER LIGHTS – 12 VOLT			
05082-0025	12 Volt Light, 300 Watt	25	13
05082-0050	12 Volt Light, 300 Watt	50	18

05086-0250	120 Volt Light, 500 Watt	250	30

Dimensions and Certifications

Note: 12 volt, 300 watt lights and 120 volt, 500 watt lights are U.L. and C.U.L. Listed (fresh water only). Sta-Rite does not recommend installing 12V lights with cord lengths greater than 50 ft. A significant voltage drop occurs which dramatically reduces the light output. Each pool or spa light should be installed with its own ground fault circuit interrupter (GFCI). UL has listed Swimquip lights for use with Swimquip niches. To ensure proper grounding/bonding connections, install only Swimquip in Swimquip niches.

Dimensions and Certifications

Note: Sta-Rite does not recommend installing 12V lights with cord lengths greater than 50 ft. A significant voltage drop occurs which dramatically reduces the light output.

Note: Each pool or spa light should be installed with its own ground fault circuit interrupter (GFCI).

Note: UL has listed Sta-Rite lights for use with Pentair niches. To ensure proper grounding/bonding connections, install Sta-Rite lights only in Pentair niches.

Note: Cord lengths over 100 ft. are for light replacement only. Use of long cord lengths is not recommended for new installations.

Note: CSA does not approve plastic niches. 1/2 in. niches will not work in Canada.

FIBERworks®

AmerGlow™ Fiber Optic Cable

Featured Highlights

- Wide-angle lens included in all assemblies
- Dense cable for installations in one inch conduit. Dense cable jacket for one inch or smaller conduit.
- Factory pre-cut, pre-OptiFused cable for convenience and superior light transmission. Requires the separate purchase of a gunite, vinyl or fiberglass "lens housing only."
- Highest quality fiber termination system available, for superior light transmission

AmerGlow - Fiber Optic Cable

AmerFlow™ 325, 225 and 170 – Single or twin lights in the pool end – AmerGlow™ 325 fiber cable for single light installations that demand the brightest cable in the industry for the most demanding installations with a single conduit. AmerGlow™ 325, 225 or 170 Single or twin lights in pool end – These super capacity fiber optic cables are used in the end wall to illuminate the entire pool. They can be fed through 1 or 1-1/2 inch rigid conduit.

AmerGlow™ 100, 70s – Multiple Lights in Pool Sides – The AmerGlow 100 and AmerGlow 70 can be used for multiple lights on the side of the pool.

AmerGlow™ 100, 70, 50 and 30 – Spa Installations – AmerGlow™ 30 fiber optic cable delivers superior light for most spas. AmerGlow 100, 70 or 50 may be used for extra large spas, spas with glass block dam wall, or long cable runs.

AmerGlow 100, 70, 50, 30 and 12 – Shadow Illumination, Step and Landscape Light – AmerGlow 30 is perfect for steps, small shadows or basic landscape illumination. AmerGlow 50 is used for more demanding requirements including waterfalls, fountains and longer runs. AmerGlow 100 and 70 can be used for washing large shadows, longer runs, or for more intense lighting.

¹ Lens housing for gunite, invisible gunite, vinyl or fiberglass purchased separately.

² Lens assembly complete for gunite, invisible gunite, vinyl or fiberglass purchased separately.

FIBERworks®

OptiFusion™ Lenses & Cable Termination System

Featured Highlights

- Wide-angle lens included in all assemblies
- Highest transmission underwater lenses available
- Invisible gunite lens assembly
- Exclusive “lens-before-liner” vinyl lens assembly
- Also in standard gunite or fiberglass
- Lens assembly is sealed even with wet conduit
- Able to install underwater
- Exclusive OptiFusion gel
- 80 watt professional Fiber-Knife

OptiFusion Termination System

OptiFusion Lenses – Superior optic and light engineering delivers the most advanced, highest transmission underwater lenses available. FIBERworks® “invisible” gunite lens assembly eliminates the conspicuous white flange and fits over 1 inch PVC conduit or inside 1-1/2 in. PVC conduit. The exclusive “lens before liner” vinyl pool assembly allows you to install cable and lens before you install the liner. All lenses are sealed even with wet conduit and can be installed underwater.

Wide-angle Lens – Advanced optical engineering design has delivered FIBERworks Wide-angle lens. This lens greatly increases the spread of light in a pool or spa and is great for those hard to reach areas. The Wide-angle lens retrofits to all existing FIBERworks lens bodies in a matter of seconds. All complete lens assemblies and lens sub-assembly kits include the Wide-angle and standard lens.

The Professional Fiber Optic Termination System – Combines OptiFusion lens technology with a quick, simple, 3-step (no-epoxy) fiber termination procedure for unparalleled light transmission. The kit contains all required special tools including professional FiberKnife™ specialty tool, cable stripper, cutting shield, lens tool, and OptiFusion Gel. Components and replenishments may be purchased separately.

FIBERworks®

UltraGlow™ Perimeter Fiber Optic Cable

UltraGlow Perimeter Fiber Optic Cable

Featured Highlights

Ultra Glow

- Available in 25, 50 or 75 fibers
- UltraGlow 50, 100% brighter than 25 fibers; UltraGlow 75 triple the brilliance of 25 fibers

FW Glow

- Circular perimeter cable available in 25 or 50 fibers
- Easily installs inside Cinderella or Ft. Wayne coping

C-Track

- Cleaner design for professional gunite and fiberglass installs. Available in clear or white PVC.
- Rigid PVC, can be formed for radius. Stainless steel screws and anchors included.

L-Track

- Easier renovation for vinyl pools
- Rigid PVC, can be formed for radius and can be used with coping forms

Other Tracks

- Stegmeier, Cardinal Systems coping, Pacific coping, Fox coping, Pleasure Way coping, Modern Pool Systems coping, Arbor, Cinderella, Quaker, Mortex
- Using a spline tool when installing UltraGlow perimeter cable can save you hours on installation

UltraGlow™ 25, 50 and 75 – Perimeter Fiber Optic Cable – UltraGlow™ is translucent, side illuminating fiber optic cable designed to install under the coping of your pool or spa. Its exclusive design promotes superior performance and ease of installation. UltraGlow 25, 50 and 75 installs in a variety of simple, professional patented track systems, for concrete, vinyl or fiberglass. Fiber Optic Track is also available in concrete coping forms and vinyl liner aluminum coping from the manufacturer's listed below. (When appropriate be sure to specify FW cable.)

Fountain Lights and Fixtures

For use in Fountains and Ponds

Featured Highlights

Fountain Fixtures

- Sturdy cast bronze construction with attractive natural bronze finish
- Base and yoke-mount rotate 360° and pivot 180°
- Integrated bonding lug for electrical safety
- Exclusive strain-relief prevents damage to wiring connections
- Niche installation option available
- Large fixture for use with the IntelliBrite® 5g Pool Light for water fountains, Amerlite® and AmerQuartz® lights listed for fountain use
- Small fixture for use with IntelliBrite® 5g Spa Light, AquaLight®, and SpaBrite® lights listed for fountain use
- For use with Pentair fountain fixtures and niche kits
- Same functionality and color cycles as the standard IntelliBrite® 5g for swimming pools
- Selectable beam pattern lens for standard and wide beam angle options

Pentair Fountain Fixtures are the only fixtures that offer true color lighting capabilities, as well as traditional white lighting. When combined with Pentair's IntelliBrite 5g color lights, these systems can bathe fountains in a constantly changing spectrum of color. Both large and small fixtures are designed for easy installation and for use with Pentair Pool Products lights only.

Pentair Large Stainless Steel Niches

Niches for Swimming Pools and Spas

Featured Highlights

- Niches for all installations
- Stainless steel housing
- Brass hub: 1/2, 3/4, or 1 in.
- Internal/external bonding lugs
- Vinyl niches with chrome/brass sealing rings
- Sandwich gasket for vinyl
- Powder coated sealing ring (optional)

Large stainless steel niches are formed with brass fittings. All niches have internal and external grounding lugs for use with either metal or PVC conduit.

Plastic Niches

Plastic Niches for Swimming Pools and Spas

Featured Highlights

Gunite Plastic Niches:

- Exclusive cord seal grommet (Accessory sold separately)
- Large and small models
- Rebar tie-backs
- Plaster ring for secure sealing
- Internal/external bonding lugs
- High strength PVC construction
- Rear one inch PVC hub
- Includes 45° and 3/4 in. reducer bushings
- Includes gunite/plaster shield

QuickNiche:

- Revolutionary design mounts and seals like a vinyl inlet fitting
- No screws directly through the pool wall as with conventional vinyl niches
- Designed for quick and easy, one-person installation
- Rubber gasket overmolded on seal ring for superior sealing
- Built-in current-collecting ring for maximum safety
- Zero wall panel exposure
- Fits standard niche panel
- UL listed

Gunite Plastic Niches – These plastic concrete niches are molded of high strength, corrosion resistant PVC with a one inch PVC hub. Both 450 and 3/4 in. reducer bushings are included. Gunite models feature rebar tie-backs and a plaster ring for clean, simple installations and all are packed with a gunite/plaster shield.

QuickNiche™ – One look at the QuickNiche is all it takes to see that this is a product that really lives up to its name. It is an easy-to-install, super-sealing light niche for vinyl liner pools. It features a revolutionary locking design that mounts and seals like a vinyl inlet fitting fast, secure, and totally leak proof.
